

HEVAR

Manchester HEVAR 2010 Press Release: 02 November 2009

Exhibitors get vocal about Manchester HEVAR 2010

With the show just over three months away, exhibitors at the Manchester HEVAR 2010 exhibition have begun revealing what products and services they will be demonstrating and launching at the show.

Taking place on 10 & 11 February at the Lancashire County Cricket ground, visitors to the exhibition will be able to see:

Soler & Palau brings silence to HEVAR

Soler & Palau on stand 46 will be displaying the Ecowatt mixed flow inline and contra-rotating axials. The function of the products is to give higher pressure in kitchen extract fans. S&P continues as the innovative market leader in inline mixed flow fans incorporating its patented "silent" technology into the silent range which will be launched at the event.

Wilo promotes products and the HEVAR Bar

Wilo, a leading pump manufacturer, will be showcasing its huge range of domestic and commercial pumps and pumping systems for heating, air conditioning and refrigeration, as well as water supply, sewage, waste water pumping and lifting solutions. In addition, Wilo will be sponsoring the bar and registration areas at Manchester HEVAR.

Airforce Ventilation Products air their goods at Manchester HEVAR

Visitors to stand 27 will see a variety of ventilation goods from Airforce Ventilation Products, that serve hospitals, factories, commercial buildings and swimming pools. As well as exhibiting shipping and off-shore platforms on their marine side.

SFL Flues and Chimneys size up software at the show

SFL Flues and Chimneys will be launching their **Chimney sizing software** on stand 34 which will make flue sizing easier and more scientific. Also featuring on their stand will be the **Nova Supra Europa Flues**.

Ziehl-Abegg UK to launch new product at Manchester HEVAR 2010

On display on stand 35 the ECblue range of axial and radial fans will be launched, these state of the art range of fans, driven by EC motors provides the market leading combined (aerodynamic and electrical) efficiencies from the very compact fans. Alongside the above range of products on display will be radial and axial fans and associated controllers.

Xpelair – energy saving ventilation products come to Manchester

Xpelair representatives on stand 6 will be showing their new decentralized and multiroom energy saving ventilation products for domestic and commercial use. Also on the stand will be ventilation and air movement solutions for both the home and industry which will assist in air quality control.

VES Andover to showcase their specialist site services

Visitors to VES Andover's stand (11) at Manchester HEVAR will be able to view their specialist site services which provide support and advice for a wide range of clients and site sectors.

Goetze UK to display range valves at the event

Goetze UK on stand 15 will be displaying their *Safety Relief Valves, Pressure Reducing Valves and accessories*.

ITT Lowara UK Ltd pump up interest at Manchester HEVAR

ITT Lowara UK Ltd will be exhibiting their complete range of pumps and variable speed drives on stand 3 at the event. ITT Lowara provide products for all segments of the Building Services Sector.

Spirotech UK Ltd promotes products and the catering area

Spirotech UK Ltd will be exhibiting their de-aeration and dirt separator products on stands 20&22 at Manchester HEVAR. In addition Spirotech will be sponsoring the catering area at the show, where visitors and exhibitors can network over lunch.
